1. COLLEGE INFORNMATION SYSTEM

Software Requirement Specification

Purpose
The purpose of this document is to present a detailed description of the College Management System. It will explain the purpose and features of the system, the interfaces of the system, what the system will do, the constraints under which it must operate and how the system will react to external stimuli. This document is intended for both the client and the developers of the system and will be proposed to the Administrative head for its approval.

Scope
This application will be a web-based application that will cater to the needs of the various activities that take place in managing a college. This system promises to make the process as minimal and straight forward as possible. The benefit of this system is that it looks forward to providing better efficiency than most other similar systems.
